Dear All,

Many thanks for your kindness and patience whilst I underwent carpal tunnel surgery on my wrist tendon. Fortunately, all went very well and I am now completely back to normal, but for a small scar, so it's all systems go with ShinyShortzRyan again.

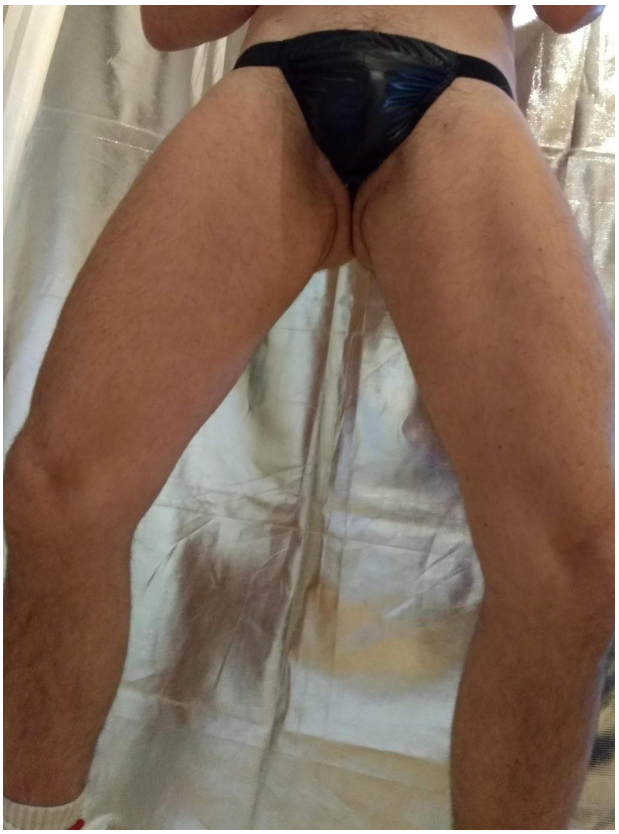
As promised, I have now launched the 'Design Your Own' Plastic Tarp Fabric Shorts in four different, fully customisable styles.

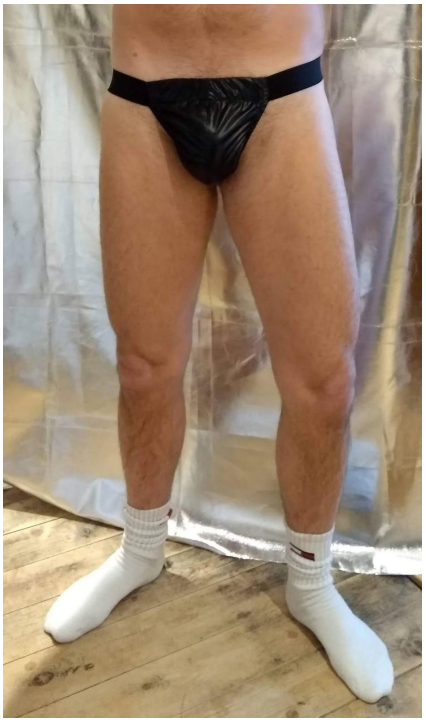
These shorts look fabulous and provide fully waterproof coverage for whatever damp activities you may have planned... If popular, I will investigate other colours in due course.

I've continued to experiment with snap fasteners and my 'Design Your Own' **Snap-Shut Hi-Cut Sprinter Shorts** now come with these more stylish capped eyelet studs (instead of the sew-on variety).

I can use them to create a detachable crotch and / or detachable waistbands, so if it's quick release, easy access shorts that you're after, then get ordering or get in touch and ask me about the possibilities.

Next up, we have these new G-string thongs, which are available in all sizes and fabrics. You can have the waistband and string in plain elastic (white or black), or covered in the fabric of your choice. The pouch can also be made in different colour fabric to create contrast if you wish.





You'll need to get your tape measure out if you want to order these, as they are impossible to 'guess' at in terms of the length of elastic needed for the string for individual customers, but if you have an existing example to measure, then I can copy that for you.

Finally, on the new products shelf, we have these Posing Pouch Shorts which have already been causing something of a flutter on social media. The best of the photos have sadly been banned by Facebook, so if you want to see me modelling these in closer detail, then head on over to my Galleries or Cluster to satisfy your curiosity... I'm sure it's the quality of the product rather than what's in them that you'll be wanting to check ;-)

I can do the pouch in a contrasting fabric from the rest of the shorts, as you can see, and the usual range of trims and stripes are available.

I can also do two different pouch designs, either ‘overhanging’ (for extra bulge freedom and exposure!) or ‘streamlined’ for a more discreet fit.

Just make your preferences known when ordering and I’ll do my best to create what you’re after.

***

As always, I continue to be on the lookout for new fabrics, so just keep an eye on my Fabrics page, which will be updated whenever new stock comes in. Certain new fabrics will be within the Members-Only Fabrics area, as they are in limited supply and tricky/impossible to get hold of again, so once they’re gone, they may well be gone for good - fair warning!

I’ve also been doing some investigating possible new suppliers for the trim and stripes that I use, as I would like my products to be more durable over time. I am about to start working with this new satin bias tape from a Spanish supplier, which looks and feels great, so if that works, then I will see about putting in a large order soon and possibly add to the range of colours on offer.

As an experiment to start with, I've got some of this pale blue trim in stock:

It's not going on general sale just yet, so it will be exclusive to Newsletter readers only. Just drop me a line if you want me to use it on anything that you order.

Finally, don't forget that I have lots of Ready-Made products available at lower prices than the 'Design Your Own' products. All of these are made either as prototypes for new ideas, or just as a means of finishing off an awkwardly shaped piece of fabric. However, none of them are 'seconds', so you can rest assured that you will always be getting a top-notch product. Here are a handful of the current offerings to whet your appetite...

Well, I think that's more than enough to keep you busy for the time being. To finish, here's the usual coupon offer for you to ponder...

All the best and have a great May!

Ryan xxx
